Professional Summary

Final-year Computer Engineering student with hands-on experience across 5+ academic and hackathon projects spanning web development, databases, and machine learning. Applied core programming and object-oriented concepts from course-work to build and deploy full-stack applications, with a growing focus on backend and cloud-ready development practices.

Education

Degree / Board	Year	CGPA / %
B.E. in Computer Engineering, Vidyavardhini's College of Engineering and Technology, Mumbai University	2023 – 2027 (Expected)	7.85 CGPA
H.S.C – Ismail Yusuf College, Mumbai	2023	75.5%
S.S.C – Dr. N.P. Shah English Medium School	2021	85.8%

Technical Skills

- **Languages:** Java, C++, Python, JavaScript
- **Web Technologies:** HTML5, CSS3, Bootstrap, Responsive Design, RESTful APIs
- **Frameworks/Libraries:** Spring Boot, Flask, TensorFlow, Keras
- **Database:** MySQL, MongoDB, Database Design
- **Tools:** Git, GitHub, VS Code, Cursor
- **Concepts:** Object-Oriented Programming, Version Control, Transfer Learning

Projects and Internships

KrishiSahayata *Hackathon Finalist – Code-o-Fiesta*

- Co-built a multi-feature agri-tech platform with modules for crop management, soil health tracking, weather reports, and equipment rental.
- Created frontend pages and implemented location-based and multi-language feature logic.
- Secured a spot among the Top 6 finalists in the competition.

Brain Tumor Detection System *Python, TensorFlow/Keras, Flask*

- Co-developed a deep learning model using VGG16 transfer learning to classify brain MRI scans into four tumor categories, achieving 95% test accuracy.
- Deployed the model as a Flask web application, enabling users to upload MRI scans and receive predictions with confidence scores.

VoteEase *MySQL, Database Design*

- Designed the database schema for a secure online voting platform, supporting authentication and real-time result computation.
- Launched the platform with a 3-member team to 100+ test users, maintaining 100% vote integrity.

Web Development Intern – Octanet Services Pvt Ltd *Dec 2024 – Jan 2025*

- Built responsive web pages using HTML, CSS, and JavaScript based on client specifications.
- Delivered 5+ client-ready pages within a 4-week timeline while ensuring cross-browser compatibility.

Intern (Frontend & Backend) – CodeAlpha *Jul 2025 – Aug 2025*

- Completed a 1-month dual-track virtual internship covering frontend and backend fundamentals.
- Gained practical exposure to full-stack workflows through assigned tasks across both tracks.

Certifications

- Programming Fundamentals using Python (Part 1 & 2) – Infosys Springboard
- Java Programming Fundamentals – Infosys Springboard
